Discover care, compassion and community for your loved one

Finding the right kind of care and support for a loved one can be difficult - it's an emotional time and naturally we want the very best for those who are dear to us.

Offering specialist memory, nursing and residential care that's tailored to individual needs, Blythe Rose in Solihull provides the perfect environment. In a word, 'home'. Safe and secure, a supportive 'family' community where the emotional wellbeing and independence of each and every resident is nurtured.

MACC Care's vision for Blythe Rose is to create a regional centre of excellence; pioneering dementia care through clinical excellence and unrivalled facilities within a luxury setting.

“I can’t say enough
how happy we are
that our mother
is in this home.
It’s wonderful.”

Joseph M
(Son-in-law of MACC Care Resident)

“...the support given to Mum is excellent. She is treated with an understanding of her dignity and needs. She is cared for with patience and gentleness.”

Lesley S (Daughter of MACC Care Resident)

Community within calming surroundings

Blythe Rose offers comfortable and comforting surroundings, with interior design informed by award-winning HammondCare and DSDC – the Stirling-based international centre of knowledge and expertise for those living with dementia.

Accommodating up to 80 residents, the home is divided into separate lodges of no more than 15 residents, living together in a 'home from home', with well-appointed individual rooms and lovely communal spaces, indoors and out.

State-of-the-art facilities and amenities

MACC Care has placed considerable emphasis on having the very best amenities available, so that everyone, regardless of their nursing or specialist care needs, can be kept safe and well, whilst enjoying life.

Integrated technology

Inobtrusive, integrated technology throughout the home helps the team at Blythe Rose deliver the highest quality and standards of memory and nursing care.

For your peace of mind, the facility features innovative solutions throughout - from acoustic listening devices installed in your loved one's room, so care can be delivered swiftly as necessary, to digital record-keeping and care planning.

My husband is positively encouraged to keep connected and engaged with family and friends – I love getting a call from him. And so do all the family.”

Gill L (Wife of MACC Care resident)

Nurse Call System

Giving our residents access to quick and timely care

Camera Technology

Enables timely intervention and provides reassurance for relatives

Care Planning

Immediate electronic updates and information always accessible by staff during care delivery

Fire Sprinklers

Located throughout the home for maximum safety

What sets us apart

Founded by doctors, MACC Care has developed 'Living in Harmony', a model of care designed to enable residents to really live their lives; upholding family values, promoting wellbeing, ensuring meaningful and fulfilling days.

Assisted by 'Homemakers', your loved one will be encouraged to cook, clean, do everyday household tasks, eat together family-style and enjoy social times. With as much or as little participation as they wish, daily life will be going on around them, supported by discussions, reminiscing and a whole host of activities, games and events. Visitors are encouraged to be 'part of the family' and are welcome join in; helping Mum with her ironing, joining Dad in a card game.

Seemingly small details can make a world of difference

- Staff don't wear uniforms or badges, removing the distinction between carers and family members and friends
- Private rooms can be decorated to suit and filled with familiar possessions for personal identification of space
- Knockers on room doors encourage the sense of privacy for residents within their own rooms
- Acoustic and movement safety monitoring alerts staff and care can be delivered at the point of need
- Control of sensory stimuli - a calming visual colour palette throughout, 'natural' lighting plus noise control
- A legible environment - with plenty of signposting and visual cues
- Memory suite divided into small lodges and 'snug' communal areas
- Access to the outdoors with balcony areas and communal garden spaces
- Bringing the outdoors in - corridors, communal areas and bedrooms contain points of interest, such as wall art featuring greenery, landscapes and a map of the local area to promote calmness and wellbeing
- Family room - a 1960's inspired private space where families can spend time with loved ones and even prepare a meal together amidst familiar surroundings of yesteryear. Also ideal for reminiscence therapy
- Daily occupational activities in which family and friends are welcome to participate
- 'High St' within the reception area, featuring a shop, hairdressers, cinema, café area - creating familiarity, a sense of purpose and enabling residents to feel that they are maintaining their independence
- Non-intrusive CCTV cameras for optimal resident safety and wellbeing
